MEMORANDUM FOR: Assistant to DCI for Coordination

SUBJECT : The NIS Program

1. Attached are some papers outlining the ideas that the Office of Basic Intelligence has developed concerning the implementation of the general concept for the NIS Program that Mr. Cline outlined for you and your staff the other day. Without being committed to all the specifics, I think that they have done a very good job of interpreting the spirit of the new concept. Mr. Cline suggested that you might wish to discuss these papers in greater detail with the Office of Basic Intelligence.

2. In accordance with your request, OBI has designated [redacted] as the permanent point of contact for your staff in OBI.
